Product Description

- Original resin tank used for ELEGOO Mars 4 Ultra 3D printer, and the FEP film is pre-installed.
 - Made of anodized aluminum and durable for long-term usage, you don't need to worry about changing your resin vat frequently.
 - Easy to assemble and replace, provide the extra lid to keep away dust, UV light source, or direct sunlight.
 - The metal vat with neat screws to fix it in place, feet on the bottom to keep the FEP film from making contact with your workbench.
 - The perfect spare resin vat when you need to change resin color faster and have a better printing experience.
-
