Product Description

Marie's Dope-Dyed Fiber Permanent Fabric Paint Set 18 Colors 10ml/Tube Textile Acrylic Paints for Clothes Canvas Waterproof

1. **Function of White Regulation:** (White regulation: pigment = 1:10), remember not to add too much. The role of White regulation it is easier to be colored after being added, more bright, and strong adhesion, higher sun resistance.

2. Clean shoes, clothes, etc. before use. After drying, first use a pencil for backing, dip a line drawing pen in appropriate textile pigment to draw the edge, and then use other brushes to paint large areas and details. After that, it needs to be dried for about 72 Hours The iron can be used properly to make the pigment adhesion stronger. 2. For painting on clothes, if light color is required, it can be prepared with white regulator, and it is best not to use water. Water will affect adhesion. 4. If you need to paint on silk objects, in order to prevent pigment diffusion, you need to prepare an electric hair dryer to paint while blowing to reduce the impact of diffusion.
