Product Description

Origin : CN(Origin) Certification : CE Output Frequency : DC Output Type : Single Output Power : >500W Description: Shell Material: Metal case Safety Compliance: FCC / CE High price-effective, reliability with industry standards Built-in over voltage, over current, and short circuit protection Ambient Humidity: 0~95% Non-Condensation Features: Built-in over voltage, over current, and short circuit protection PWM design, make sure the stability and high efficiency of power supply. Anti-jamming, passed EMC test, wave less than 20MV. Constant voltage output, assume stable power supply for LED lightings to reach long lifetime Typical Applications LED Strip power supply Security surveillance industry Other industrial applications
